Alsuwaidi & Company is a UAE law firm, rooted in local know-how, and operating to international standards. They work with leading regional and international businesses, helping them to grow and thrive in the UAE.

Over the past two decades they have consistently aligned their business with that of their clients, working with them closely to deliver pragmatic solutions to their legal challenges.

Since Al Suwaidi & Company has implemented SAP Business One with 10XPaybooks, and can manage employee profiles, benefits, leaves, air ticket requests with a proper control mechanism for employees and line managers in an efficient and well-organized workflow-driven manner.

10XLawOne is a central application for managing a law firm's entire operations. We give more transparency and smooth business operations connected to your clients and Matters with this solution. Billing, Legal Accounting, Task Management, and Matter Management are some of the other tools we provide. It integrates all company activities, from people management to financial accounting and buying, into a single system.
