Gourmet Foods is one of the leading value-added food manufacturing facilities with strong footprint in the GCC and Levant.

Since SAP Business One with 10XLimo was implemented, Gourmet Food LLC, are provided with a hassle-free state-of-the-art functionality to its users which are well integrated with any ERP for real-time data availability and transactions on move. With the help of the 10XLimo, the entire process from Sales Order creation to the Sales Invoice generation can be done using the VAN Sales mobile application for both B2B and B2C business models.

With Quality check add-on, Gourmet Foods LLC ensures that the quality of the food coming in and going out is always great. The end consumer is always in the benefit with this add-on as the food is never rotten. The process of checking and approving the quality of the food is simplified and streamlined with this add-on.

10XLIMO (Add-on for VAN Sales) application provides hassle-free state-of-the-art functionalities to the users which are well integrated with SAP Business One ERP for real-time data availability and transactions on move. It is made available in both iOS and Android platforms.
