SAUDIA Hypermarket, Supermarket & Departmental Stores are business units under the umbrella of SAUDIA Group. SAUDIA Group aspires to empower all customers who walk through our doors with a distinct advantage in leading their chosen lifestyle with pride and satisfaction, irrespective of their social and economic status.

They are committed to offer their customers the most extensive range of choices, the finest quality and unmatched value, complimented by world-class customer service standards through an enjoyable and rewarding shopping experience.

The Retail Add-on helps Retailers transform through the complete hypermarkets and supermarkets to meet the industry best practices to achieve retailers' need and right planning tools at their disposal which can be seamlessly integrated with SAP Business One.

This Warehouse Management Mobile (WMS) Application is available for Both windows and Android. This can be installed in the Portable Data Terminal (PDT) Devices which will have in-built barcode scanner. Through this application all the warehouse related activities like Purchase and Inventory can be managed.

Since implementing SAP Business One with 10XPaybooks, Saudia Group of Companies Doha W.L.L., can manage employee profiles, benefits, leaves, air ticket requests with a proper control mechanism for employees and line managers in an efficient and well-organized workflow-driven manner.
