

# Seven Emirates Supermarket LLC manages its hypermarket with **SAP Business One®**

Seven Emirates Supermarket LLC is a place where you can buy all your daily needs, located in Abu Dhabi, with offering Fresh Vegetable & Fruits and Quality goods with affordable Prices.

The Retail Add-on helps Retailers transform through the complete hypermarkets and supermarkets to meet the industry best practices to achieve retailers' need and right planning tools at their disposal which can be seamlessly integrated with SAP Business One.

This Warehouse Management Mobile (WMS) Application is available for Both windows and Android. This can be installed in the Portable Data Terminal (PDT) Devices which will have in-built barcode scanner. Through this application all the warehouse related activities like Purchase and Inventory can be managed.

SAP Customer Checkout helps you adapt to the demands of the fast-moving retail, entertainment, and food and beverage sectors by taking advantage of new business opportunities in an agile manner. You can scale, integrate, and extend your POS solution rapidly to meet the needs of a growing business, while centrally managing multiple POS systems to get a consolidated view of receipts, vouchers, and users. The application also provides sophisticated tools to help you manage employees effectively and maintain personalized customer communications in compliance with data privacy regulations.
